DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claims 1-2 are rejected under 35 U.S.C. 102(b) as being anticipated by Kawabata (Japanese Patent # 2000-093278).

With respect to claim 1, Kawabata shows a piece of melamine dinnerware comprising: an outer body (4) made of melamine resin molding compound (paragraph 0007 In. 2) and having a bottom (6), a circumferential wall extending from said bottom upward and gradually outward to form an upper annular edge.

An inner body (3) made of stainless steel (paragraph 0012 ln. 1) and having a bottom to correspond to the bottom (6) of the outer body (4), a circumferential wall extending from the bottom to correspond to the circumferential wall of the outer body (6) and formed with an upper flange (5).

The inner body (3) placed in the outer surface with the upper flange resting on the upper annular edge of the outer body (4), said upper flange (5) of said inner body (3) bent to surround the upper annular edge tightly to keep said inner body from separating from said outer body (fig. 2).

Application/Control Number: 10/725,322 Page 3

Art Unit: 3727

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claim 2 rejected under 35 U.S.C. 103(a) as being unpatentable over Kawabata (Japanese Patent # 2000-093278) in view of Brandon (USPN 4,106,658).

Kawabata discloses the invention substantially as claimed. However Kawabata does not disclose upper flange provided with a bit straight end before said inner body is assembled with said outer body.

Brandon teaches, applicants bit strait end (26) for a locking portion in the analogous art of food containers for the purpose of locking the two components together (col. 2 ln. 30).

It would have been obvious to one having ordinary skill in the art at the time the invention was made to have the upper flange provided with a bit straight end (26) of Brandon's before said inner body is assembled with said outer body in order to lock the components together.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shawn M. Braden whose telephone number is (571)272-8026. The examiner can normally be reached on Mon-Thurs 8-6:30.

Application/Control Number: 10/725,322 Page 4

Art Unit: 3727

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nathan Newhouse can be reached on 571 272-4544. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
